

StudyBuddy Test Academic Material

Sample Transcript, Syllabus and Course Notes

Student: Meera Patel

Program: B.Sc. Computer Science

Semester: 6

1. STUDENT TRANSCRIPT

Course	Grade	Marks
Artificial Intelligence	A	88
Cloud Computing	B+	76
Big Data Analytics	A	90
Cyber Security	B	70
Python Programming	A+	93
Statistics	A	85

2. SYLLABUS

Artificial Intelligence

• Search Techniques • Knowledge Representation • Machine Learning • Neural Networks • Expert Systems

Cloud Computing

• Cloud Models • Virtualization • Storage • Compute Services • Security • Deployment

Big Data Analytics

• Hadoop • HDFS • MapReduce • Spark • Data Processing • Visualization

Cyber Security

• Threats • Cryptography • Authentication • Network Security • Malware • Security Policies

Python Programming

• Data Types • Functions • OOP • NumPy • Pandas • File Handling

Statistics

• Probability • Distributions • Sampling • Estimation • Hypothesis Testing • Regression

3. COURSE NOTES AVAILABLE

Artificial Intelligence

• Search Techniques • Knowledge Representation • Machine Learning

Cloud Computing

• Cloud Models • Virtualization • Storage

Big Data Analytics

• Hadoop • HDFS • MapReduce • Spark

Cyber Security

- Threats • Cryptography • Authentication

Python Programming

- Data Types • Functions • OOP • NumPy • Pandas

Statistics

- Probability • Distributions • Sampling • Estimation

4. EXPECTED TEST BEHAVIOR

The agent should identify Cyber Security and Cloud Computing as relatively weaker subjects because their grades are B and B+. Missing-note topics should include Artificial Intelligence Neural Networks and Expert Systems, Cloud Computing Compute Services and Security and Deployment, Big Data Analytics Data Processing and Visualization, Cyber Security Network Security and Malware and Security Policies, Python Programming File Handling, and Statistics Hypothesis Testing and Regression. The agent should produce a short prioritized study plan before the student asks a question.

Suggested retrieval tests: 'What is my Big Data Analytics mark?', 'Which Cyber Security topics are missing from my notes?', and 'What Python topics did I study?'
